### Timing Calibration

Base NOTE: The removal and installation of the fuel priming pump and filler base on the 3408 and 3412 Generator Sets is similar so only one will be shown. In some applications there will be two fuel filters instead of one. 1. Turn the fuel supply valve to the "OFF" position.

The electronic components in the HEUI fuel system are very similar to those used in other EUI systems. However, in the HEUI system, the injectors are not actuated by a camshaft. A high pressure hydraulic pump, which draws oil from the pressure side of the lubrication pump, raises the pressure to a maximum of 22800 kPa (3300 psi).
