Congress authorizes PEPFAR (the "US Leadership Against HIV/AIDS, Tuberculosis, and Malaria Act of 2003" or Global AIDS Act), a 5-year, \$18 billion approach to fighting HIV/AIDS, making it the largest commitment by any nation for an international health initiative dedicated to a single disease.

HIV/AIDs Timeline | NPIN

The first reports of highly selective antagonists against the HIV protease were revealed in 1987. Phase I trials of saquinavir began in 1989 and it was the first HIV protease inhibitor to be approved for prescription use in 1995. Four months later, two other protease inhibitors, ritonavir and indinavir, were approved.

Discovery and development of HIV-protease inhibitors ...

At the conference, Dr. Mann delivered the first presentation about AIDS in Africa at a U.S. meeting and reported that the incidence of AIDS in Kinshasa was 15--30 times higher than in the United States (38). Dr. Mann left Zaire to begin the Global Programme on AIDS at the World Health Organization.
