Strategic management is the process of strategic analysis of an organization, strategy-focused objective-setting, strategy formulation, strategy implementation, and strategic evaluation and control. Strategic analysis is involved with analyzing the industry in which the organization is operating its business and analysis of both the external and internal environmental factors.

### Strategic Management: Meaning, Concepts, Examples (Explained)

Emergent strategy is the process of identifying unforeseen outcomes from the execution of strategy and then learning to incorporate those unexpected outcomes into future corporate plans by taking a bottom up approach to management. Emergent strategy is also referred to as 'realized strategy'. Henry Mintzberg introduced the concept of emergent strategy since he did not agree with the concept of deliberate strategy put forward by Michael Porter.
