End of Life | Simple Book Publishing

Description Most Americans prefer their home as a place of death, but most die in the hospital acute care setting. Nurses are the major providers of hospital-based end-of-life care; therefore, it is imperative to identify family preferences for nursing support during the end of life.

While care after death is the last act of nursing care, it is the first step of a pathway that ultimately leads to burial or cremation.

The pathway involves many professional groups including nurses, doctors, porters, mortuary staff, pathologists, coroners, funeral directors and bereavement teams.
