This field manual (FM) sets forth guidance for all personnel responsible for physical security. It is the basic reference for training security personnel. It is intended to be a “one-stop” physical-security source for the Department of Defense (DOD), the Department of the Army (DA), and other proponents and agencies of physical security.

FM 3-19.30 Physical Security - WBDG | WBDG

It must be stressed that this handbook addresses integrated physical security. Physical security is the protection of buildings and all their assets, including people. Integrated physical security recognizes that optimum protection comes from three mutually supporting elements: physical security measures, operational procedures and procedural security measures. That is what this five-step methodology is based on.
