The Rolex reference numbers can vary between 4 to 6 digits in length. Now, what each of the numbers means, and what each digit position in the number tells us, we'll go into detail further on, but let's go over them quickly, to begin with. The first two or three digits in the Rolex reference number gives you information about which model it is. This is a huge help since by only knowing the two or three first digits that each model is represented by, you can instantly tell which model is ...

Rolex Reference number Guide: The Go-to Resource List ...

Model or reference numbers within a particular series of watch (Submariners, say) tend to follow an evolutionary scheme (to wit: the modern Rolex GMT Master II with Pepsi bezel is the 126710BLRO, which sounds like a mouthful — but when you realize that the ref. 16710 was the last generation of the “Pepsi” bezel-quipped GMT Master II that Rolex produced before the current one came out, you can see how one reference number evolved into the next one).

The Complete Rolex Buying Guide: Every Current Model Explained

The dial's luminescent Chromalight display is an innovation that improves visibility in dark environments, an essential feature for divers. The Submariner and Submariner Date feature a Chromalight display: the hands and hour markers are coated or filled with a lumi-nescent material that emits a long-lasting blue glow in dark conditions.
